

CHRISTMAS TREES MARKET 2022

Thanks everyone (including the Georges) for your efforts.

It was an enjoyable event in our town which was unexpectedly a little quieter than usual. Peter will be checking our figures and I'm hoping we'll make just shy of a £2k surplus.

This will be significantly down on 2021 but this was expected given a £700 increase in tree costs, more local competition, some unsold trees and perhaps selling a bit early in the month.

Batching the trees worked well but parked cars were a nuisance and site layout and signage could be improved further. The cash/card point worked extremely well as did wrapping once an extra roll of netting was collected.

Looking forward to reviewing and planning for 2023.
